

October 14, 2010

Dear Local 2748 Member,

The PSS bargaining team has met regularly with the employer for the past several months. We have now reached tentative agreements on a number of non-economic issues such as improvements to the transfer process, procedures for performance evaluations, requirements for corroborating evidence in disciplinary matters, an updated agent time study and safeguards to protect jobs in the event a youthful facility is closed or converted.

Negotiations are scheduled with the employer again next week. We hope to wrap up remaining language items in the near future.

Thank you for your support.
